Milestone of receiving 10 Million metric tons of LNG in total

Shizuoka Gas Company is pleased to announce that we have achieved our milestone of receiving 10 million metric tons of LNG in total with the delivery of the LNG tanker *Seri Alam* from Malaysia at Sodeshi Terminal on March 20th, 2014.

We brought in LNG to replace the petroleum-based feedstock with natural gas with the first delivery of the LNG tanker *Puteri Nilam* from Malaysia in June, 1996. Since then, we have continued to receive LNG cargoes mainly from Malaysia and Australia for 18 years. Our milestone of receiving 10 Million metric tons of LNG in total was achieved by the 187th LNG delivery. We would like to express our heartfelt gratitude to the related parties for their cooperation during such period.
